	Technical Notes

In response to the COVID-19 pandemic, NCHS is releasing provisional death data from the National Vital Statistics System (NVSS) on a [daily](#) and [weekly](#) basis. These data come directly from death certificates filed at the state and local level, and feature counts of COVID-19-related deaths by age, gender, race and Hispanic origin, place of death, and include information on other health conditions and comorbidities involved in these deaths. Estimates on excess deaths – the number of deaths exceeding the normal average total of deaths in recent years – are also included. The statistical summary below is updated weekly (usually on Wednesday), and includes links to corresponding data tables on the NCHS COVID-19 data page.

Weekly Summary on COVID-19 Deaths

NOTE: Due to delayed reporting of death certificates, this count is incomplete and less than counts from other sources besides NCHS. The result is a lag in the count totals of a few weeks, and as more data are received, these totals will likely equal or exceed counts reported by other sources through the same week.

Deaths Attributed to COVID-19 on Death Certificates

Data as of 10/13/2021	Total	2021	2020
Deaths through week ending 10/9/2021			
712,930			In at least 90% of these deaths, COVID-19 was listed as the underlying cause of death. For the remaining deaths, COVID-19 was listed as a contributing cause of death.

Microsoft Power BI

Weekly Highs and Lows of COVID-19 Deaths

Data as of 10/13/2021

Most Current (Incomplete) Weekly Total,
week ending 10/9/2021

2,002

Highest Weekly Number of Deaths, week
ending 1/9/2021

25,960

Lowest Weekly Number of Deaths, week
ending 7/3/2021

1,506

Note: Lowest weekly number is selected based on weeks after the initial first wave peak (4/1/2020) and not within the last 5 weeks. Data for the most recent 5 weeks are typically less than 90% complete, with lower levels of completeness in more recent weeks.

Microsoft Power BI

Place of Death

Data as of 10/13/2021

Total

2021

2020

Hospital or Other Inpatient Health-Care Setting

Nursing Home or Long-Term Care Facilities

67.3% (479,481 deaths)

16.6% (118,568 deaths)

Microsoft Power BI

Death by Age Group

Data as of 10/13/2021

Total

2021

2020

65-and-over age group

45-64 age group

Under 45 age group

76.2% (543,214 deaths)

20.1% (143,169 deaths)

3.7% (26,547 deaths)

Microsoft Power BI

Percentage of COVID-19 Deaths by Race & Hispanic Origin

Data as of 10/13/2021

Total

2021

2020

Non-Hispanic White

Hispanic

Non-Hispanic Black

62% (440,154 deaths)

18% (126,512 deaths)

15% (107,323 deaths)

Non-Hispanic Asian

NH American Indian/Alaskan Native

NH Native Hawaiian/Pacific Islanders

4% (24,929 deaths)

1% (7,817 deaths)

0.2% (1,536 deaths)

NOTE: This is the distribution of all COVID-19 deaths according to race and Hispanic origin. The non-Hispanic white population accounts for the majority of deaths overall which is reflected in this percentage distribution. When compared to their own race and Hispanic sub-population, COVID-19 deaths disproportionately affect Hispanic, non-Hispanic black, and non-Hispanic American Indian/Alaskan Native populations. Please see the [Health Disparities page](#) for more information.

Microsoft Power BI

Most Frequently Listed Comorbidities with COVID-19 Deaths

Data as of 10/10/2021		Total	2021	2020
Influenza & Pneumonia			Hypertension	Diabetes
47.9% (339,190 deaths)			19.1% (135,103 deaths)	15.6% (110,766 deaths)
Alzheimer disease and other Dementias			Sepsis	
11.9% (84,450 deaths)			9.7% (68,949 deaths)	

NOTE: There were co-morbidities or other conditions listed on the death certificate for as many as 95% of all COVID-19 deaths ([Table 3, Weekly](#)). The other 5% of death certificates in which COVID-19 was the only condition listed was likely related to a lack of detail listed about other conditions present at the time of death.

Total Excess Deaths

Total Excess Deaths from
2/1/2020 to 10/2/2021

819,918

This number reflects the mid-point between the estimated range of 735,055 to 904,780 excess deaths.

Refer to "[Number of Excess Deaths](#)" dashboard listed under "Options."
